

HYGAIN
FEEDING CHAMPIONS SINCE 1983

Special Ingredients

HYGAIN® RBO® Equine Performance Oil® - HYGAIN® RBO® Equine Performance Oil® is a blend of rice bran oil, omega 3, 6 & 9 essential fatty acids and natural anti-oxidants known to improve the health and structural integrity of cell membranes. HYGAIN® RBO® oil plays an important role in maximising energy efficiency due to its energy dense nature and is digested efficiently in the small intestine reducing the 'sugar high' associated with high grain diets. HYGAIN® RBO® promotes growth and development of the muscular system, top line and a healthy skin and coat.

Natural Vitamin E - This unique and highly stable form of Natural Vitamin E known as RRR- α -tocopherol is up to 5 times more bio available and potent than regular synthetic sources of Vitamin E. Research has shown that this form of Natural Vitamin E provides higher retention levels in plasma, further aiding antioxidant, immune, cardiovascular, circulatory, neuromuscular and reproductive functions.

Bio-Available Selenium - Selenium acts as an antioxidant to prevent fatty acid oxidation which can cause tissue damage. Research has shown that Sel-Plex®, an organic form of selenium, is more readily absorbed and retained than selenium in inorganic forms.

Tru Gain®

The high Fat Conditioner.

- ✓ HYGAIN® RBO® Equine Performance Oil®
- ✓ Natural Vitamin E
- ✓ Bio-Available Selenium
- ✓ Body Conditioning
- ✓ Gleaming Coat

Analysis as fed

Crude Protein	10%	Vitamin E	700 IU/kg
Crude Fat	20%	Selenium	1.0 mg/kg
Max Fibre	18%	Phosphorus	0.5%
Calcium	1%		

Ingredients

HYGAIN TRU GAIN® is a blend of the following quality ingredients: Rice Bran Oil, Bran, Legume Hulls, Natural Vitamin E, Bio-Available Selenium, Calcium Carbonate.

Feeding Guide* (rates per day)

HYGAIN TRU GAIN® can be fed as an addition to your horse's premixed feed/grains and roughage. Feeding amount may be influenced by age, breed, appetite, exercise, desired body condition and pasture/hay quality and availability.

HYGAIN TRU GAIN® Feeding Chart by weight* (rates per day)

Small Horses/Ponies (Less than 400kg/880lbs)	250g - 500g TRU GAIN® (0.5lbs - 1.1lbs)
Larger Horses	500g - 1000g TRU GAIN® (1.1lbs - 2.2lbs)

*Intended as guide only, all variables should be taken into consideration.

Application of Use

HYGAIN TRU GAIN® is a safe and effective extruded high fat supplement, providing your horse with a cool energy source along with bio-available Vitamin E and Selenium. The increased energy density is designed to rapidly boost your horse's body condition and assist performance horses in meeting their energy requirements.

HYGAIN TRU GAIN® may also be used to decrease (partially replace) the amount of grain in your horse's diet, providing a safer method of supplying calories. Reduced levels of starch intake may decrease the risk of feed related disorders such as colic, laminitis, acidosis, Equine Metabolic Syndrome and Cushings.

Horses that are adapted to dietary fat have an increased oxidative capacity and spare muscle and liver glycogen during aerobic exercise.

A high quality coat is partially dependent on providing horses with essential fatty acids for healthy skin and gleaming hair as provided in HYGAIN TRU GAIN®.

HYGAIN®'s controlled moisture and pressure cooking process (extrusion) promotes highly efficient digestion and nutrient utilisation and improved feed safety.

Why use HYGAIN TRU GAIN®?

HYGAIN TRU GAIN® as an alternative energy source provides the following benefits to your horse's diet:

- Increases energy content of diet without fizz
- Reduces excitability
- Increases oxidative capacity in performance horses
- Acts as a carrier for fat soluble vitamins

HYGAIN TRU GAIN® is ideal for:

- Horses that require weight gain
- High Performance horses
- Endurance horses
- Show & sales preparation
- Horses prone to Tying Up/stomach ulcers
- Poor Doers
- Stud horses
